

ASX RELEASE – 30 September 2005

Health Care Insurance Limited signs up for THELMA

Health Care Insurance Limited ('HCI'), the private health insurer that serves the paper, forest and timber industries, has signed a three year User Agreement to use THELMA for claims and eligibility checking.

HCI is a 'Not For Profit' organisation and is one of the 23 health funds that use the HAMBS member management software, which THELMA is fully integrated to.

HCI is the sixth HAMBS fund to sign up, and will go live on THELMA next week.

For more information about HCI, visit www.hcilt.com.au.

About ICSGlobal and THELMA

Founded in 1990 as an engineering and IT consultancy, ICS Group grew to over 200 consultants with projects in 33 countries before listing on the Australian Stock Exchange in 1999 as ICSGlobal Limited [ASX:ICS]. Since 2000, ICSGlobal's core business has been the unique "any-to-any" health industry clearing house technology **THELMA** (Transactional Health Exchange Linking Multiple Applications), which ICSGlobal built, owns and operates. THELMA creates interoperability between the broad range of new and legacy software systems that typically exist in health systems. This enables health industry business partners in any country to conduct financial, clinical and administrative transactions electronically over the Internet. In Australia, THELMA's customer base continues to grow steadily, now standing at 60% of private health insurers, 35% of private hospitals, 20% of public hospitals on the east coast, plus is connected into the national Medicare system for member checks and electronic claims. THELMA went live in the UK in July 2005. For more information visit www.icsglobal.net and www.thelma.com.au.
