

MediFlex signs up to THELMA

MediFlex Pty Ltd has signed up to use THELMA to deliver medical claims to Medicare and to the health insurance funds. Mediflex is the third practice management software vendor to sign up to THELMA in the last month.

The MediFlex team has been supporting the medical community with high quality, easy-to-use software solutions for the past 25 years, with over 300 sites across Australia using its system.

“MediFlex’s main focus has been to provide state-of-the-art practice management and clinical software systems supporting the medical profession, along with the industry’s best and most comprehensive service and support.”

“We decided to use THELMA to enhance our claiming capability as it allows us to remain focussed on maintaining our reputation for providing a quality product and the highest level of customer service, whilst offering a state-of-the-art online claiming service” said Phil Kirby, Director of MediFlex.

MediFlex are currently in the process of connecting to THELMA’s claims service. The roll out of the service to Mediflex customers is expected to commence in July 2007.

About ICSGlobal and THELMA

Founded in 1990 as an engineering and IT consultancy, ICS Group listed on the Australian Stock Exchange as ICSGlobal Limited in 1999 [ASX:ICS]. Since 2000, ICSGlobal’s core business has been the unique “any-to-any” health industry clearing house technology **THELMA** (Transactional Health Exchange Linking Multiple Applications), which ICSGlobal built, owns and operates. THELMA creates interoperability between the broad range of new and legacy software systems that typically exist in health systems. This enables health industry business partners in any country to conduct financial, clinical and administrative transactions electronically over the Internet.
