

ASX RELEASE – 24 October 2005

Queensland Country Health signs up for THELMA

Queensland Country Health Ltd ('QCH') has signed a three year User Agreement to use THELMA for electronic hospital and medical claims and eligibility checking.

On 1 January 1999, Queensland Country Credit Union were asked to take over the Management Rights of the MIM Employees Health Society and since that date they have traded as Queensland Country Health Ltd, an open Health Benefits Fund.

QCH provides health insurance cover to around 30,000 people, and is one of the 23 health funds that use the HAMBS member management software, which THELMA is fully integrated to.

QCH will go live on THELMA this week.

QCH is the 19th health insurance fund to sign up to THELMA and the 5th fund to sign up in the last two months.

About ICSGlobal and THELMA

Founded in 1990 as an engineering and IT consultancy, ICS Group grew to over 200 consultants with projects in 33 countries before listing on the Australian Stock Exchange in 1999 as ICSGlobal Limited [ASX:ICS]. Since 2000, ICSGlobal's core business has been the unique "any-to-any" health industry clearing house technology **THELMA** (Transactional Health Exchange Linking Multiple Applications), which ICSGlobal built, owns and operates. THELMA creates interoperability between the broad range of new and legacy software systems that typically exist in health systems. This enables health industry business partners in any country to conduct financial, clinical and administrative transactions electronically over the Internet. In Australia, THELMA's customer base continues to grow steadily, now standing at 60% of private health insurers, 35% of private hospitals, 20% of public hospitals on the east coast, plus is connected into the national Medicare system for member checks and electronic claims. THELMA went live in the UK in July 2005. A Proof of Concept is in progress in the US. For more information visit www.icsglobal.net and www.thelma.com.au
