

ASX RELEASE – 14 December 2005

## Transport Health Fund signs up for THELMA

Transport Health Fund has signed up to use THELMA for electronic hospital claims, medical claims and eligibility checking.

Since 1888, Transport Health has been delivering straightforward, useful and low cost health insurance and related services to employees and families of the Transport Industry in Australia.

Transport Health will go live on THELMA this week, taking live health fund coverage in Victoria to 66%.

Transport Health is the 24th health insurance fund to sign up to THELMA and the 10th fund to sign up and go live in the last four months, which is partly responsible for the 100% growth in hospital transaction volume so far this calendar year.

### About ICSGlobal and THELMA

Founded in 1990 as an engineering and IT consultancy, ICS Group grew to over 200 consultants with projects in 33 countries before listing on the Australian Stock Exchange in 1999 as ICSGlobal Limited [ASX:ICS]. Since 2000, ICSGlobal's core business has been the unique "any-to-any" health industry clearing house technology **THELMA** (Transactional Health Exchange Linking Multiple Applications), which ICSGlobal built, owns and operates. THELMA creates interoperability between the broad range of new and legacy software systems that typically exist in health systems. This enables health industry business partners in any country to conduct financial, clinical and administrative transactions electronically over the Internet. In Australia, THELMA's customer base continues to grow steadily, now standing at 60% of private health insurers, 35% of private hospitals, 20% of public hospitals on the east coast, plus is connected into the national Medicare system for member checks and electronic claims. THELMA went live in the UK in July 2005, and has been certified to operate in the US. A Proof of Concept in the US has been completed.
