About ICSGlobal and Thelma

Founded in 1990, ICSGlobal listed on the Australian Stock Exchange in 1999 [ASX:ICS]. ICSGlobal's core business is medical banking: a range of electronic tools and services that helps patients, doctors, hospitals, laboratories, health insurers and governments to make payments or get paid. Underpinning the business is our configurable medical banking clearinghouse technology, **Thelma** (**T**ransaction **H**ealth **E**xchange **L**inking **M**ultiple **A**pplications), which clears and settles healthcare bills electronically over the Internet. ICSGlobal has a dual-edged global growth strategy around medical banking - the expanded deployment of Thelma and the acquisition of established, profitable medical billing companies. In Australia, Thelma went live in 2000 and volume growth continues at over 50% per annum, and "EziBill", an Australian medical billing company, went live in 2008. In 2007, ICSGlobal acquired The London Patient Billing Service (LPBS), the UK's leading company in the outsourced patient billing services sector, which has since been renamed Medical Billing & Collection (MBC). In the US, Thelma's "all-payer" national medical banking network went live in October 2008, and the first medical billing company, Medical Recovery Services, Inc., was acquired in December 2008.
