

ASX RELEASE – 5 September, 2008

Outcome of Federal Court directions hearing

On 11 August 2008, Thelma Pty Ltd, a wholly owned subsidiary of ICSGlobal, filed an application in the Federal Court of Australia alleging anti-competitive conduct by Medicare Australia.

Thelma alleges that Medicare Australia has unlawfully used its market power in providing electronic private health transaction services identical to those provided by Thelma into the private health sector, free of charge, in direct competition to Thelma, for the purpose or effect of eliminating or substantially damaging Thelma; and/or to deter or prevent Thelma from engaging in competitive conduct.

In the first directions hearing for the matter yesterday, the Federal Court ordered Medicare Australia to file its defence by 16 October 2008.

The next hearing for the matter was set down for 23 October 2008.

The Board of ICSGlobal remains confident of the merits of the company's claim against Medicare Australia.

About ICSGlobal and Thelma

Founded in 1990, ICSGlobal listed on the Australian Stock Exchange in 1999 [ASX:ICS]. ICSGlobal's core business is medical banking: simplifying healthcare payments, helping patients, doctors, hospitals, health insurers and government to get paid or make payments. We do this using our configurable medical banking clearinghouse technology, **Thelma** (Transaction Health Exchange Linking Multiple Applications), which facilitates clearing and settling medical bills electronically over the Internet, rather than the stress, time and cost of filling in forms and trying to work out who owes what to whom. ICSGlobal's global medical banking growth strategy involves the expanded deployment of Thelma in the Australian, UK and US markets, as well as the acquisition of established, profitable medical billing companies, the first acquisition being The London Patient Billing Service in 2007. Thelma-US went live in August 2008. For more information visit www.icsglobal.net, www.thelma-us.com, and www.londonbilling.com.
