

ASX Release - 25 June 2007

ICSGlobal and Medical Wizard team up for Hospital and Medical Claims

ICSGlobal Limited today announced that software company, Mouse Soft (trading as Medical Wizard), had signed up to THELMA, ICS's e-health payments clearing house solution.

Medical Wizard is the eighth medical software vendor to select THELMA to deliver electronic claims to Medicare and the private health funds, bringing to over 60% the number of Australian medical specialists connected to THELMA. THELMA already has connectivity to hospital software systems that account for over 90% of the private market.

Medical Wizard focuses on day hospitals & specialist medical centres and is the second largest day hospital software provider in Australia.

Medical Wizard was established in 1993, and has developed an enviable reputation and track record of providing effective solutions to Day Hospitals & Specialist Medical Centres, combined with outstanding personalised ongoing support services.

Chandana Weerakoon, the Managing Director of Medical Wizard said: "We are excited by the prospect of being able to provide our customers with access to a quality service like THELMA. THELMA removes the complexity from health insurance claims. It is convenient for both patients and hospitals and most importantly removes the paperwork."

"THELMA has been in operation for over 7 years and has built a solid reputation in the health industry for providing an industry payments clearing house that is simple to connect to."

"A number of our customers have previously been using THELMA's eligibility service. They will now have access to the full range of THELMA's electronic claiming services via Medical Wizard," Mr Weerakoon said.

About ICSGlobal and THELMA

Founded in 1990 as an engineering and IT consultancy, ICS Group listed on the Australian Stock Exchange as ICSGlobal Limited in 1999 [ASX:ICS]. Since 2000, ICSGlobal's core business has been the shrink-wrapped clearing house technology **THELMA** (Transactional **H**ealth **E**xchange **L**inking **M**ultiple **A**pplications), which ICSGlobal built, owns and operates. THELMA's unique "any-to-any" technology is simply configured to connect the broad range of new and legacy software systems that typically exist in health systems globally. This enables health industry business partners in any country to simply, quickly, and cost effectively conduct financial, clinical and administrative transactions electronically over the Internet.
