

ASX RELEASE – 1 February 2007

New Director Joins ICSGlobal Board

ICSGlobal Limited is pleased to announce that Mr Ross Bunyon has joined the Board as a Non-Executive Director.

Mr Bunyon's other current Non-Executive positions include:

- Chairman, Eraring Energy
- Chairman, RailCorp NSW
- Chairman, Turner & Townsend, Rawlinsons Pty Ltd

Some former positions held by Mr Bunyon include:

- Chairman, Green's Foods Ltd
- Chairman, Pacific Power & Pacific Power (International) Pty Ltd – the global consulting arm
- Director, Treasury Corporation of New South Wales
- Director, AMPY Digilog Holdings, UK
- Member of the World Energy Council – Executive Assembly

The Chairman of ICSGlobal Dean Pritchard said, "I'm delighted that Ross has agreed to join the Board. Ross brings a broad range of complementary skills and experience to ICSGlobal, in particular his international merger and acquisition experience, which is very timely in view of the exciting global prospects that ICSGlobal now has."

About ICSGlobal and THELMA

Founded in 1990 as an engineering and IT consultancy, ICS Group listed on the Australian Stock Exchange as ICSGlobal Limited in 1999 [ASX:ICS]. Since 2000, ICSGlobal's core business has been the unique "any-to-any" health industry clearing house technology **THELMA** (**T**ransactional **H**ealth **E**xchange **L**inking **M**ultiple **A**pplications), which ICSGlobal built, owns and operates. THELMA creates interoperability between the broad range of new and legacy software systems that typically exist in health systems. This enables health industry business partners in any country to conduct financial, clinical and administrative transactions electronically over the Internet. In Australia, THELMA's customer base stands at over 70% of private health insurers, over 40% of national private hospital beds, approximately a third of national medical specialists, about half of the national pathology market, and over 100 radiology practices. THELMA also processes claims into the Australian Medicare system. THELMA-UK is currently being rolled out across the UK private health sector. Plans for the rollout of THELMA in the US are being developed with a number of organisations, after THELMA was certified to operate in the US in November 2005.
