

ASX RELEASE – 4 July 2007

June 2007 Quarter Volume

ICSGlobal today released its June quarter transaction volumes.

Transaction volumes through THELMA in Australia continued to grow in the June quarter, as shown in the graph below.

The graph is still predominantly comprised of low volume, high value hospital transactions.

Transaction volumes are expected to continue to grow strongly over the next quarter as the use of the THELMA medical claims service expands.

About ICSGlobal and THELMA

Founded in 1990 as an engineering and IT consultancy, ICS Group listed on the Australian Stock Exchange as ICSGlobal Limited in 1999 [ASX:ICS]. Since 2000, ICSGlobal's core business has been the unique "any-to-any" health industry clearing house technology **THELMA** (Transactional Health Exchange Linking Multiple Applications), which ICSGlobal built, owns and operates. THELMA creates interoperability between the broad range of new and legacy software systems that typically exist in health systems. This enables health industry business partners in any country to conduct financial, clinical and administrative transactions electronically over the Internet. For more information visit www.icsglobal.net and www.thelma.com.au.
